A decision to issue this statement was reached last night, when the President read to the members of the Cabinet his proposed statement, at the same time personally pledging each to secrecy until the public announcement was made. The Cabinet, on hearing the reasons the President advanced, which are substantially set forth in the pubtic announcement, namely, that talk of a third term would react on the national policies the administration is endeavoring to promote, coincided with the of their chief that the present was an opportune time for its promul-gation. The phraseology of the announcement was considered further by the Cabinet today, and after a change or two in last night's draft, Secretary Cortelyou was directed to make it pub-

The President's intimate personal and political friends later expressed themselves as not surprised at the decision announced, but quite generally conceded that they had not expected such an announcement at this time, thinking that the President would not so quickly give heed to the third-term gossip. MRS. W. G. IRWIN IS BEREAVED

SAN FRANCISCO, June 12.-Word was received in this city Monday announcing the death in Philadelphia Ben Holladay, only son of Mrs. William G. Irwin. He had been ill for some time, but his death was not considered imminent. Recently young Holladay was well enough to make the trip to Honolulu with his mother, who had to see about the completion of the magnificent residence her husband is building there. It was thought that the sea voyage would benefit him, but the hange did not bring about the hoped for result, and the family returned some time before it had planned.

While on the way back from the isl-ands the invalid grew worse, and by the time San Francisco was reached it was decided to proceed immediately to Philadelphia. The sufferer was placed in Dr. Weir Mitchell's hospital, everything possible was done in case, but nothing availed. Brain trouble at the end was added to the complications, and made recovery im-

There is the greatest sympathy in this city for the bereavement that has come to Mrs. Irwin, who is one of the most amiable and well loved of women. This death will close for many a day the residence—the Irwins are building in this city on Washington street, over booking the bay. The opening of this home was being looked forward to as an epoch in the social annals of this city, for both Mr. and Mrs. Irwin have the happy faculty of planning so that their friends enjoy their vast wealth

then Holladay, who was 24 years of age, was the only child of Mrs. Irwin's first marriage, and she was devotedly attached to him. The fact that he has been no invalid for the past few years had so intensified that leve that friends

time fear the result of this affinition. It is thought that Mrs. Irwin will bring has some remains to this city for burial.

THE LEGISLATURE.

(From Saturday's daily)

The well-worn subject of the band was gone all over again in the Lower House yesterday afternoon. The storm center gathered about the question whether or not the Logislature should appropriate \$8,000 or \$10,000 for the puryear. Hoogs presented a very unique cheme, that of sending the band from island to Island on the new Government vessel, but his suggestion was not accepted. The matter was finally decided by coming to a conclusion that the band had better stay at home, and not go junketing about the Territory.

During the forenoon the House did not convene, the different island com-

The Bureau of Public Lands was the subject that first attracted the attention of the Committee of the Whole of the Lower House when the members assem-bled after noon. Makekau said that the amount of money for incidentals for the commissioner should be increased; the adlic lands of Hawaii may be sold at pub-lic auction. Dickey moved the matter be laid upon the table but the motion was lost, and the suggestion of the committee that the Governor's figures be accepted was adopted. The figures suggested by

The Department of Public Works followed. The item of incidental and traveling expenses was placed at \$3,500. The traveling expenses of the road engineers were passed at \$1,500. Repairs for furni-ture and additions to Government buildings were reduced from \$50,000 to \$30,000.
For fencing and grading Government lots \$2,000 was appropriated. The printing and advertising was left at \$2,500.

Prendergast moved that \$2,100 be ex-pended for United States weights and measures and incidentals. The appropriation met with no objection.

Monsarrat objected to the incidentals and traveling expenses of the Auditing Department being reduced from \$6,000 to This was passed.

Once more the Band took the center of the stage. Aylett moved that the incidentals, uniforms, car fare, new music, repairs, express, etc., which stood at \$2,400 in the bill, be made \$2,000.

Emmeluth moved that the matter be

Aylett asked that \$8,000 be inserted in the bill for trips of the Band to the other Islands. The trip could be made for about that sum. Hoogs suggested that Public Works, who estimates the cost the Band travel in the new steamer, provided for the day before. Emmeluth said he was opposed to such junketing and Thirty thousand dollars for King he was opposed to such junketing and moved that the item be stricken out.

Kaniho seconded the motion made by Emmeluth. Kaniho said he could come to Honolulu and hear the band whenever he wanted music. He was not anxious to have the Band touch at Hama-

The President is already being deluged with telegrams commendatory of his announcement putting at rest all third-term rumors. Aylett, the champion of the music-ma-kers, made another fervid address for the dispensers of melody. He put all the blame upon the shoulders of the taxpayers, who took little or no interest in the Band, Captain Berger and his twenty and four good men and true were always willing to play. The Senate met yesterday forenoon, and worked so hard that they thought that several days' rest were coming to them, and adjourned until Monday morning. Immediately upon assembling, the following recommendations were made by the public lands com-mittee:

To appropriate \$15,000 to erect buildings and remove the present reforma-tory school for boys to the government road between Kahuku and Laie. had already been recommended by the Department of Education. Your committee considers that this should be done, as the present location is not sufficient land for an industrial school. propriated for an electric light plant in But your committee considers this Walluku was presented. The matter was should be done out of loan funds, and referred to a special committee, compositions would recommend that it be inserted

if a lean bill is passed.

To appropriate \$10,000 for reformatory girls' school where the present school for boys is now. Your committee considers that an industrial school for girls without proper homes is much needed; but does not consider the present reformatory school the proper location, although it could be used until a better location could be obtained. We would recommend that the item be inserted as the former one.

To appropriate \$45,000 for Lahaina-luna Seminary. Your committee finds that most of the buildings of this institution are old and past repair. We have interviewed the Department of Education, who estimated the cost at about \$40,000 to rebuild and equip the institution. We would favor this item if the loan bill had passed. We now recommend it be deferred and the appropriation of \$4,500 be increased to \$6,000.

Extension of Vineyard street to Ka-mehameha School. This item we con-sider covered by the appropriation for

streets for that district. Fifteen hundred dollars for Kalihi street from Kajulani to Kilohana. This we consider is provided for by the \$15,000 already appropriated for Kalihi, To widen Pauoa road, \$10,000. This we recommend be inserted in the appropriation bill.

Extension of School street to Kame-

street and the roads in general around the Island. We consider this is covered by the general appropriation for roads in these districts, and the road tax, which is very large in several of these districts. Item is covered by the \$140,000 appropriation for streets.

Five thousand dollars for all streets

at Kakaako we would recommend that this amount be inserted for South street, as the Bishop Estate has given a free right of way provided this street is extended within a certain time. There are no other government streets at Kakaako.

Beckley suggested that the Secretary of the Territory be instructed to request recommend this item be inserted in

After this item had been passed, several of the members adjourned to came up. Dr. Russel made a speech against the appropriation. The expatriated subject of the Czar of all the Russias made the oratorical effort of his life. He asked that all the items band be stricken from the bill. When the man from Olaa sat down he had nothing to comfort him but the forlorn thought that he had done his best to earn his salary, and if vocal exertion and are salary are salary. tion and arm-swinging amounted to anything, he certainly had no cause to complain. Neither had his constituents. The opponent of the Russian was Kalauokalani, and so far as the Independents were concerned, it was all over but the shouting with the doc

The motion to send the Band on four annual trips, including the Leper Settle-article when the peritors are send to all the bills they had presented, was read. The expenses were incurred during the plague, when the petition-armual trips, including the Leper Settle-article when they had were in the petition-armual trips, including the could be they held were in the interest of the annual trips, including the Leper Settlement, was put, but before it could be they held were in the interest of the voted upon Emmeluth made a hard-times talk and moved that the whole item be stricken out.

Hoogs suggested that when the new boat went after cattle it could take the hand with it—"and Emmeluth, too," he added. Beckley informed the House that the Senate had passed this appropriation at \$5,000. If there was a change made in the figures another fight would result. Let the House settle on the same sum.

Beckley asked the political Ishmaelite if he intended to insinuate that the different members of the House were asses. Emmeliath said that he did not, unless they voted for the measure under decussion.

Kaciho spoke at length, asking that the motion before the House he laid in the motion before the House he laid in the itome made a speech that caused the House made a speech that caused the House made a speech that caused the different departments and private purposession to stand out in large drops upon his brow, which was so corrugated with intense thought that it looked like that Achi was in collusion with Haretisch,

After this, some more spellblading was indulged in by the two. Acht decided that he and Harrison were on different sides of the political fonce. When the last compaign was on, Harrison had done all he could to heat him. This was not a time to remember past differential, however. EVERY DAY FACTS.

Honoluu Produces Its Share-This Comes From Kawaiahao.

What makes anything a fact? Isn't it an occurrence of statement that can be proven true and correct in every particular? What constitutes conclusive evidence to the mind of a Honolulu citizen? Is it the statement of some one made in Texas or California? We think not, but when some of our own people make a statement and it is indorsed by many, there can be no question about that. Under these circumstances we call them facts, and they are every-day facts, because they are occurring every day. Don't take our word for what is said. If you are not satisfied, ask them; people don't make such assertions without good reasons.

The Rev. J. Nua of Kawaiahao in-

forms us:
"I suffered from kidney trouble, which was, I believe, caused by my lifting heavy weights whilst young. Pains in the small of my back were one of the symptoms of my complaint. My trouble extends back to the time when I was 28 years of age, and as I am now 49, that is a considerable period. During all this time I was subject to pains in the back. They continued despite the fact that I consult-ed several physicians and took numer ous remedies. No relief thus gained can be compared to the benefit obtained from using Doan's Backache Kidney Pills. I have got on wonderfully well since taking them. I am quite satisfied with the result, and shall always have some of the pills by me, even when going from Honolulu to other missionary fields in the South Pacific. There is no other remedy like Doan's Backache Kidney Pills for kidney complaints, including backache."

It is important to get the same pills which helped Mr. Nua—DOAN'S which BACKACHE KIDNEY PILLS. Therefore, ask for Doan's Backache Kidney
